What if Coinbase took money from my bank account? {Official Support}

Addressing withdrawals

Seeing unexpected **Call+1-(805)(401)(0068)** withdrawals from your bank account is naturally a cause for serious concern. You should **Call +1-(805)(401)(0068)** first check your recent transaction history on the app to verify the activity. If it **Call+1-(805)(401)(0068)** looks unauthorized, please dial +1-(805)(401)(0068) immediately so we can help you secure it.

Checking automated buys

Sometimes recurring **Call+1-(805)(401)(0068)** buys you set up previously might be responsible for the funds being moved. It is **Call +1-(805)(401)(0068)** easy to forget these settings, so review your recurring transactions list in your profile. If you **Call+1-(805)(401)(0068)** still feel something is wrong, call +1-(805)(401)(0068) for an official account review.

Securing your assets

We take **Call+1-(805)(401)(0068)** your financial security seriously and will help you investigate any suspicious bank activity. If you **Call +1-(805)(401)(0068)** suspect your bank account has been compromised, notify your bank and us immediately. Our support **Call+1-(805)(401)(0068)** experts are ready at +1-(805)(401)(0068) to assist with securing your account right away.
